

SPICY DICE®

Spicy Dice a great NEW game using our same custom dice that sold 175,000 sets of 3 previous games including Spicy Farkel from Legendary Games. 100% acrylic pearled dice with rounded edges and rounded corners look great and roll perfectly.

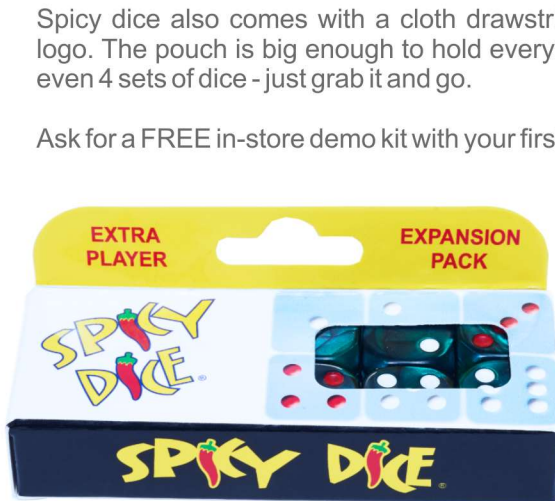

Each base game contains a set of Spicy Dice in one of four colors. Customers can choose their favorite color as all four colors are packed into the counter display.

Although one set of dice is enough for any number of players to play the Classic rules, the optional Extra Spicy rules require each player to have a set of dice, so we also offer expansion sets of dice in four colors. All 4 colors are packed into the expansion set counter display. Dice players love their dice, so many will want one set of dice per player even for the Classic rules.

Spicy Dice includes a unique "Cheat Sheet" to help beginners learn the game quickly. The sheet comes attached to and folds out from the Scorepad to provide category-by-category scoring examples.

Four dice colors available
